* Estimate should be used with caution due to the small number of sample returns on which it is based.

** Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] These data do not include any taxable Individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, $15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

[3] Less than $500.

* Estimate should be used with caution due to the small number of sample returns on which it is based.

** Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] These data do not include any taxable Individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, $15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

[3] Less than $500.

NOTE: Detail may not add to totals because of rounding.

* Estimate should be used with caution due to the small number of sample returns on which it is based.

** Data combined to avoid disclosure of information for specific taxpayers.

[1] The total number of returns does not include the returns filed by individuals to only receive the economic stimulus payment and who had no other reason to file.

NOTE: Detail may not add to totals because of rounding.
