[1] Tax collections exclude federal aid, user charges, and miscellaneous general revenue.

[2] Population data are for the midpoint of the observation year.

[3] Alaska and Hawaii are excluded from the Far West regional totals, but are included in the U.S. totals.

[4] Because most of Alaska's revenue is derived from the taxation of oil production and the income of oil companies, the recent figures greatly overstate the actual tax collected from the residents of the state. To a lesser extent, this is true of other states that derive revenue from severance taxes.
