Number of AMT Taxpayers (millions). Baseline: 4.9
Proposal: 4.9

* Less than 0.05
** Insufficient data
(1) Calendar year. Baseline is a 15 percent nonrefundable credit on the first $\$ 1,000,000$ of debt. Proposal would reduce the maximum amount of debt eligible for the 15 percent nonrefundable credit to $\$ 500,000$ of debt on a primary residence, second home, and/or a home equity loan. Estimates are static and do not assume that taxpayers would adjust their inves tment portfolio and pay down their mortgage balance if their tax benefit from mortgage interest was reduced. For a description of TPC's current law baseline, see?
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value.
(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

(1) Calendar year. Baseline is a 15 percent nonrefundable credit on the first $\$ 1,000,000$ of debt. Proposal would reduce the maximum amount of debt eligible for the 15 percent nonrefundable credit to $\$ 500,000$ of debt on a primary residence, second home, and/or a home equity loan. Estimates are static and do not assume that taxpayers would adjust their inves
ment portfolio and pay down their mortgage balance if their tax benefit from mortgage interest was reduced. For a description of TPC's current law baseline, seeß
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.Cfm
des those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are cluded in the totals. For a description of expanded cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes,
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

## Table T15-0227

Reduce the the Maximum Amount of Debt Eligible for the 15 Percent Non-refundable Credit from $\$ 1,000,000$ to $\$ 500,000$ Baseline: Replace the Mortgage Interest Deduction with a 15 Percent Non-refundable Credit
