The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2015 dollars): 20% \$18,626; 40% \$34,588; 60% \$57,568; 80% \$92,401; 90% \$131,891; 95% \$177,563; 99% \$473,266; 99.9% \$2,972,922.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

Note: Elderly tax units are those with either head or spouse (if filing jointly) age 65 or older.

(1) Calendar year. Baseline is current law. Proposal would: (a) replace the Hope Scholarship Credit with the American Opportunity Tax Credit, which is currently set to expire on 12/31/17, and (b) extend the following provisions in the American Taxpayer Relief Act of 2012, currently set to expire on 12/31/17: increase the EITC plateau for married couples by \$5,000, indexed for inflation after 2009; raise the EITC phase-in rate for those with 3 or more children to 45 percent; reduce the earnings threshold for the CTC to \$3,000, unindexed. For a description of TPC's current law baseline, see:

http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2015 dollars): 20% \$18,626; 40% \$34,588; 60% \$57,568; 80% \$92,401; 90% \$131,891; 95% \$177,563; 99% \$473,266; 99.9% \$2,972,922.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
