^[1] Tax status is determined by the presence or absence of a positive value reported on Page 1, Part 2, Line 15 of the return. Taxable returns are those having a reported positive value on this line; nontaxable returns are those having a reported value of \$0 on this line.

^[2] This is the value of total gifts reported by the donor after gifts have been split between the donor and the consenting spouse.
[3] This is the sum of marital and charitable deductions reported. An unlimited marital deduction is available for all outright transfers to a donor's spouse. An unlimited charitable deduction is available for all outright transfers to qualified charities. These deductions are available for gifts to trusts only under limited circumstances.

[4] This is the amount of taxable gifts (total gifts less exclusions and deductions) for all prior tax years in which the donor transferred property.

^[6] This is the value of available unified credit that is applied to the gift tax liability in the current period, as reported on Part 2, Line 12 of Form 709. It is the lesser of available unified credit less the specific exemption amount (reported on Part 2, Line 10 of Form 709) or tax on current period gifts.

^[7] This is the sum of reported value of gift tax on current period gifts and generation-skipping transfer taxes.

NOTES: Detail may not add to totals due to taxpayer reporting discrepancies and processing tolerances. "Number" shown in Columns 1, 3, 5, etc. refer to the number of returns.

 If This is the dollar value of gifts given by the donor during the current tax year and reported on Schedule A of Form 709. Gifts include those subject to gift tax only and those subject to both gift and generation-skipping transfer taxes.

 [2] Under Federal gift tax law, a donor is allowed to divide or 'split' the value of gifts to third parties with his or her spouse if certain requirements are met. "Gifts attributed to spouse" is the value of gifts that is split and reported on the consenting spouse's Federal gift tax return from the consenting spouse's return.

 [4] This is the value of total gifts reported on the donor spouses' Federal gift tax return from the consenting spouse's return.

 [5] An unlimited marital deduction is available for all outright transfers to a donor's spouse. The deduction is available for gifts to trust only on limited circumstances.

 [6] An unlimited charitable deduction is available for all outright transfers to qualified charities. The deduction is available for gifts to trust only if the trust meets certain requirements.

 [7] This is the amount of taxable gifts (total gifts less exclusions and deductions) for all prior tax years in which the donor transferred property.

 [8] This is the value of available unified credit that is applied to the gift tax liability in the current period.

 [8] This is the reported value of gift tax or current period gifts.
