Number of AMT Taxpayers (millions). Baseline: 5.6 Proposal: 5.6

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law. Proposal would repeal the following Affordable Care Act (ACA) taxes: the 3.8 percent Net Investment Income Tax, the 0.9 percent additional HI tax, the excise tax on employers offering inadequate health insurance coverage, the excise tax on individuals without adequate health insurance, the increase in threshold for medical expense deductions, and the excise taxes on health insurance providers, pharmaceutical manufacturers and importers, and medical device manufacturers and importers. The proposal would delay the Cadillac tax until 2025. Analysis excludes changes to health insurance tax credits, Health Savings Accounts, and Medical Flexible Spending Accounts. For a description of TPC's current law baseline,

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is current law. Proposal would repeal the following Affordable Care Act (ACA) taxes: the 3.8 percent Net Investment Income Tax, the 0.9 percent additional HI tax, the excise tax on employers offering inadequate health insurance coverage, the excise tax on individuals without adequate health insurance, the increase in threshold for medical expense deductions, and the excise taxes on health insurance providers, pharmaceutical manufacturers and importers, and medical device manufacturers and importers. The proposal would delay the Cadillac tax until 2025. Analysis excludes changes to health insurance tax credits, Health Savings Accounts, and Medical Flexible Spending Accounts. For a description of TPC's current law baseline, <http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
