Proposal: 0.2

(1) Calendar year. Baseline is the law in place for 2018 as of 10/30/2018. Proposal reduces eligibility age for 0 child credit from at least 25 to at least 19. Full time students only qualify for the credit if they are not filing a dependent return.

http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

- (3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2017 dollars): 20% \$25,100; 40% \$49,300; 60% \$85,900; 80% \$153,300; 90% \$222,900; 95% \$319,100; 99% \$754,800; 99.9% \$3,318,600.
- (4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.
- (5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.
- (6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0718-1).

(1) Calendar year. Baseline is the law in place for 2018 as of 10/30/2018. Proposal reduces eligibility age for 0 child credit from at least 25 to at least 19. Full time students only qualify for the credit if they are not filing a dependent return.

 $\underline{\text{http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm}}$

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2017 dollars): 20% \$17,300; 40% \$32,900; 60% \$55,900; 80% \$93,900; 90% \$135,200; 95% \$190,600; 99% \$435,700; 99.9% \$1,897,500.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

- (5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.
- (6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0718-1).

Note: Elderly tax units are those with either head or spouse (if filing jointly) age 65 or older.

(1) Calendar year. Baseline is the law in place for 2018 as of 10/30/2018. Proposal reduces eligibility age for 0 child credit from at least 25 to at least 19. Full time

students only qualify for the credit if they are not filing a dependent return.

http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

- (3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2017 dollars): 20% \$17,300; 40% \$32,900; 60% \$55,900; 80% \$93,900; 90% \$135,200; 95% \$190,600; 99% \$435,700; 99.9% \$1,897,500.
- (4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.
- (5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.
- (6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

^{*} Non-zero value rounded to zero; ** Insufficient data
