Notes: Data collected by the IRS may vary from year to year. From 1979 on, data is available in all categories. 1966 is the earliest year in which cash, noncash, and carryover where all recorded.

Prior to 1944, there was no standard deduction, and thus no recording of number of returns with itemized deductions.

For 1943 and earlier, the category of "all returns: amount" changes from amount of adjusted gross income to amount of net income.

Year 1917 was the first year in which the deduction for charitable contributions existed.
