Source: U.S. Department of Labor. Consolidated Minimum Wage Table. January 2020.

Notes: (1) Applicable to nonsupervisory nonfarm private-sector employment under state and federal laws. Like the federal wage and hour law, state law often exempts particular occupations or industries from the minimum labor standard generally applied to covered employment. Some states also set subminimum rates for minors and/or students or exempt them from coverage, or have a training wage for new hires. Additionally, some local governments set minimum wage rates higher than their respective state minimum wage. Such differential provisions are not identified in this table.

(2) Federal minimum wage law supersedes state minimum wage laws where the federal minimum wage is greater than the state minimum wage. In those states where the state minimum wage is greater than the federal minimum wage, the state minimum wage prevails.

(3) The District of Columbia has the highest minimum wage at \$14.00/hour. There are 18 states (AK, AZ, CA, CO, DC, FL, ME, MN, MO, MT, NV, NJ, NY, OH, OR, SD, and WA) that currently have scheduled annual adjustments for their minimum wages based on varying formulas. Most of these increases occur around January 1st.
