Number of AMT Taxpayers (millions). Baseline: 0.1

Proposal: 0.1

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar year. Baseline is the law currently in place as of March 17, 2020. Proposal would expand the EITC for workers with no qualifying children at home by 1) increasing the end of the phase-in from \$7,030 to \$9,720, 2) increase the beginning of the phase-out from \$8,790 to \$11,490 and 3) increase the phase-in and phase-out rates from 7.65% to 15.3%

We assume that 50% of current law non-filing childless earners would begin filing to take the expanded the EITC, rising to 60% by 2025; EITC takeup among single filers with no children would increase to 70% in 2020 (91% by 2024); and EITC takeup among married filers with no children would increase to 74% in 2020 (79% by 2024.)

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate taxes; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

\* Non-zero value rounded to zero; \*\* Insufficient data

(1) Calendar year. Baseline is the law currently in place as of March 17, 2020. Proposal would expand the EITC for workers with no qualifying children at home by 1) increasing the end of the phase-in from \$7,030 to \$9,720, 2) increase the beginning of the phase-out from \$8,790 to \$11,490 and 3) increase the phase-in and phase-out rates from 7.65% to 15.3%

We assume that 50% of current law non-filing childless earners would begin filing to take the expanded the EITC, rising to 60% by 2025; EITC takeup among single filers with no children would increase to 70% in 2020 (91% by 2024); and EITC takeup among married filers with no children would increase to 74% in 2020 (79% by 2024.)

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
