[1] District of Columbia is excluded from state totals but included in local totals.

[2] Excludes duplicative intergovernmental transactions; it is less than the sum of the state and local totals in columns 4 and 8.

[3] Includes taxes, user charges, miscellaneous general revenue, utility revenue, liquor store revenue, and social insurance revenue. Own-source total revenue is calculated by subtracting intergovernmental revenue from total revenue. This figure should not be confused with own-source general revenue.

[4] Includes substantial but unknown amounts of federal grants to states that are "passed through" by the states to local governments.
