Proposal: 0.8

* Non-zero value rounded to zero; ** Insufficient data
(1) Calendar Year. Baseline is the law currently in place as of December 12, 2021. Provision would increase the limit on deductible state and local taxes from $\$ 10,000$ to $\$ 80,000$. Any additional deduction above the amount allowed by the current-law $\$ 10,000$ limit would phase out rateably over an adjusted gross income (AGI) range of $\$ 100,000$ starting at $\$ 900,000$ for married couples filing a joint return ( $\$ 450,000$ for singles and $\$ 675,000$ for heads of household). For married individuals filing a separate return, the limit would increase from $\$ 5,000$ to $\$ 40,000$ and any additional deduction would phase out between $\$ 450,000$ and $\$ 500,000$ of AGI.
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2020 dollars): $20 \%$ \$27,400; 40\% \$54,200; 60\% \$96,000; 80\% \$174,900; 90\% \$254,500; 95\% \$366,100; 99\% \$867,100; 99.9\% \$3,981,100.
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value.
(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

Non-zero value rounded to zero; ** Insufficient data
Note: Tax units with children are those claiming an exemption for children at home or away from home or with children qualifying for the Child Tax Credit or EITC.

1) Calendar Year. Baseline is the law currently in place as of December 12, 2021. Provision would increase the limit on deductible state and local taxes from $\$ 10,000$ to $\$ 80,000$,
ny additional deduction above the amount allowed by the current-law $\$ 10,000$ limit would phase out rateably over an adjusted gross income (AGI) range of $\$ 100,000$ starting
$\$ 900,000$ for married couples filing a joint return ( $\$ 450,000$ for singles and $\$ 675,000$ for heads of household). For married individuals filing a separate return, the limit would
crease from $\$ 5,000$ to $\$ 40,000$ and any additional deduction would phase out between $\$ 450,000$ and $\$ 500,000$ of AGI.
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income,
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2020 dollars): $20 \% \$ 19,100 ; 40 \% ~ \$ 37,200 ; 60 \% ~ \$ 63,800 ; 80 \% ~ \$ 107,000 ; 90 \% ~ \$ 155,200 ; 95 \%$ 218,300; 99\% \$503,700; 99.9\% \$2,239,200.
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value
(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.
2) For income categories for which the baseline tax burden is negative, a positive percent change in average federal tax indicates a net increase in federal subsidies, and a negative percent change indicates a net decrease in federal subsidies
(7) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

## Table T21-0293

Increase Limit on Deductible State and Local Taxes (SALT) to $\$ 80,000$ for those with Adjusted Gross Income (AGI)
Less than $\$ 900,000$ Married Filing Jointly/\$675,000 Head of Household/\$450,000 Single
hase out increase in Deduction over $\$ 100,000$ Range of Adjusted Gross income (AG)
