Number of AMT Taxpayers (millions). Baseline: 7.6

Proposal: 7.3

(1) Calendar year. Baseline is the law currently in place as of December 28, 2022. Includes provisions as described in Treasury's General Explanations of the Administration's Fiscal Year 2024 Revenue Proposals (the "Green Book") with the exception of provisions related to: tax compliance; tax administration; and the premium tax credit. Also excludes provisions with a revenue impact less than \$100 million in the years of our analysis; and three aspects of changes to the child tax credit—the acceleration of benefits due to advance monthly payments, changes to AGI lookback, and provisions related to eligibility. For more information on TPC's baseline definitions, see

<http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(4) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

(1) Calendar year. Baseline is the law currently in place as of December 28, 2022. Includes provisions as described in Treasury's General Explanations of the Administration's Fiscal Year 2024 Revenue Proposals (the "Green Book") with the exception of provisions related to: tax compliance; tax administration; and the premium tax credit. Also excludes provisions with a revenue impact less than \$100 million in the years of our analysis; and three aspects of changes to the child tax credit—the acceleration of benefits due to advance monthly payments, changes to AGI lookback, and provisions related to eligibility. For more information on TPC's baseline definitions, see <http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(4) For income categories for which the baseline tax burden is negative, a positive percent change in average federal tax indicates a net increase in federal subsidies, and a negative percent change indicates a net decrease in federal subsidies.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
