* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is the law currently in place as of May 2, 2023. Provisions include: Modification of credit for electricity produced from certain renewable resources; Modification of energy credit; Zero-emission nuclear power production credit repealed; Repeal of credit for production of clean hydrogen; Nonbusiness energy property credit; Residential clean energy credit reverted to credit for residential energy efficient property; Modifications to new energy efficient home credit; Alternative fuel refueling property credit; Advanced energy project credit extension reversed; Repeal of advanced manufacturing production credit; Repeal of clean electricity production credit; Repeal of clean electricity investment credit; and Repeal of clean fuel production credit. Excludes repeal of electric vehicle credits that were not estimated by the Joint Committee on Taxation (JCT) in JCX-7-23. For more information on TPC's baseline definitions, see <http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2023 dollars): 20% \$32,400; 40% \$62,300; 60% \$111,200; 80% \$201,600; 90% \$293,500; 95% \$423,200; 99% \$1,018,100; 99.9% \$4,725,000.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.

* Non-zero value rounded to zero; ** Insufficient data

(1) Calendar year. Baseline is the law currently in place as of May 2, 2023. Provisions include: Modification of credit for electricity produced from certain renewable resources; Modification of energy credit; Zero-emission nuclear power production credit repealed; Repeal of credit for production of clean hydrogen; Nonbusiness energy property credit; Residential clean energy credit reverted to credit for residential energy efficient property; Modifications to new energy efficient home credit; Alternative fuel refueling property credit; Advanced energy project credit extension reversed; Repeal of advanced manufacturing production credit; Repeal of clean electricity production credit; Repeal of clean electricity investment credit; and Repeal of clean fuel production credit. Excludes repeal of electric vehicle credits that were not estimated by the Joint Committee on Taxation (JCT) in JCX-7-23. For more information on TPC's baseline definitions, see <http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm>

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2023 dollars): 20% \$22,900; 40% \$43,900; 60% \$75,100; 80% \$124,600; 90% \$180,400; 95% \$255,100; 99% \$596,900; 99.9% \$2,715,100.

(4) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); estate tax; and excise taxes.

(5) For income categories for which the baseline tax burden is negative, a positive percent change in average federal tax indicates a net increase in federal subsidies, and a negative percent change indicates a net decrease in federal subsidies.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, the estate tax, and excise taxes) as a percentage of average expanded cash income.
