(1) Calendar year. Baseline is current law. The proposal removes the age limits on childless EITC eligibility and assumes that non-taxable social security benefits are included in AGI for the purposes of determining the phase-out of the childless EITC. Tax units under the age of 25 are ineligible for the childless EITC if they are full time students. Married filing joint tax units are ineligible if both are under the age of 25 and both are full time students. Age refers to the age of the head of the tax unit.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) The cash income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2008 dollars): 20% \$18,981, 40% \$37,595, 60% \$66,354, 80% \$111,645, 90% \$160,972, 95% \$226,918, 99% \$603,402, 99.9% \$2,871,682.

(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
