NOTE: Table shows the impact of the individual income tax measures on 2009 calendar year tax liability. Some individuals may not actually receive the benefits of the provisions until filing their 2009 tax returns in April of 2010. For more discussion of the proposals, see the TPC's Tax Stimulus Report Card: Conference Agreement, available at http://www.taxpolicycenter.org/taxtopics/conference_stimulus.cfm.

Number of AMT Taxpayers (millions). Proposal: 30.3

(1) Calendar year. Baseline is current law. For a description of "The American Recovery and Reinvestment Tax Act of 2009" see http://waysandmeans.house.gov/media/pdf/111/arra.pdf. Proposal includes the Making Work Pay Credit equal to 6.2% of earned income up to a maximum credit of $400 ($800 for joint filers) phased out at a rate of 2 percent of AGI exceeding $75,000 ($150,000 for joint filers). Economic Recovery Payments, which are a one-time payment of $250 to tax units receiving social security, SSI or veterans benefits. The one-time payment is a reduction to any allowable Making Work Pay credit. The Earned Income Tax Credit percentage for families with three or more qualifying children is increased to 45 percent and the threshold phase-out amount for joint filers is increased to $5,000 above the phase-out threshold for single and head of household tax units. The Child Tax Credit refundability earnings threshold is reduced to $3,000. The HOPE credit is made available for four years at a rate of 100% of the first $2,000 of qualified expenses and 25% of the next $2,000. The phase-out thresholds are increased to AGI $80,000 ($160,000 for joint filers), textbooks are made a qualifying expense and forty percent of the credit is made refundable. Up to $2,400 of unemployment benefits are excluded from gross income. The AMT exceptions for 2009 are increased to $46,700 ($70,950 for joint filers) and personal credits are made allowable against AMT liability. The Home Buyers Credit is equal to 10% of house value up to a maximum of $8,000 ($4,000 for couples filing separate) for first time homebuyers. Credit is phased out for AGI in excess of $75,000 ($150,000 for couple filing jointly).

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

</table>

NOTE: Table shows the impact of the individual income tax measures on 2009 calendar year tax liability. Some individuals may not actually receive the benefits of the provisions until filing their 2009 tax returns in April of 2010. For more discussion of the proposals, see the TPC's Tax Stimulus Report Card: Conference Agreement, available at http://www.taxpolicycenter.org/taxtopics/conference_stimulus.cfm.

1 Calendar year. Baseline is current law. For description of proposals, see summary table.
2 Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm.
3 Includes both filing and non-filing units but excludes those that are dependents of other tax units.
4 After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
5 Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Note: Elderly tax units are those with either head or spouse (if filing jointly) age 65 or older.

(1) Calendar year. Baseline is current law. For description of proposals, see summary table.
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm.
(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
