| More than 1,000 | 0.0 | 0.0 | 0.0 | 0.0 | 0 | 0.0 | 33.7 |
| All | 2.5 | 0.0 | 0.0 | 100.0 | -8 | 0.0 | 22.9 |

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0509-4).
Number of AMT Taxpayers (millions). Baseline: $16.6 \quad$ Proposal: 16.8
(1) Calendar year. Baseline is current law plus the following EGTRRA extensions: increase the maximum credit rate to 35 percent; increase the eligible expenses to $\$ 3,000$ for one child and $\$ 6,000$ for two or more children; increase the start of the credit rate phasedown to $\$ 15,000$ of AGI (not indexed for inflation); and allow the credit regardless of tentative AMT. Proposal would increase the threshold at which the credit rate begins to phase down from $\$ 15,000$ to $\$ 85,000$.
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Baseline is current law plus the following EGTRRA extensions: increase the maximum credit rate to 35 percent; increase the eligible expenses to $\$ 3,000$ for one child and $\$ 6,000$ for two or more children; increase the start of the credit rate phasedown to $\$ 15,000$ of AGI (not indexed for inflation); and allow the credit regardless of tentative AMT. Proposal would increase the threshold at which the credit rate begins to phase down from $\$ 15,000$ to $\$ 85,000$.
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
