Number of AMT Taxpayers (millions). Baseline: 4.5 Proposal: 4.5

^{*} Less than 0.05

^{**} Insufficient data

⁽¹⁾ Calendar year. Baseline is current policy, which makes 2011 tax law permanent with the exception of the temporary 2 percent reduction in Social Security payroll taxes. Proposal would require taxpayers to pay the higher of their tax under regular rules, including any applicable AMT liability, and an amount equal to 21 percent of modified AGI (MAGI), defined as AGI plus tax-exempt interest income. The 21 percent rate would phase in over a range of \$250,000 to \$500,000 of MAGI for married couples (\$200,000 to \$400,000 for singles and heads of household), indexed for inflation after 2009.

⁽²⁾ Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm

⁽³⁾ Includes both filing and non-filing units but excludes those that are dependents of other tax units.

⁽⁴⁾ After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

⁽⁵⁾ Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

⁽¹⁾ Calendar year. Baseline is current policy, which makes 2011 tax law permanent with the exception of the temporary 2 percent reduction in Social Security payroll taxes. Proposal would require taxpayers to pay the higher of their tax under regular rules, including any applicable AMT liability, and an amount equal to 21 percent of modified AGI (MAGI), defined as AGI plus tax-exempt interest income. The 21 percent rate would phase in over a range of \$250,000 to \$500,000 of MAGI for married couples (\$200,000 to \$400,000 for singles and heads of household), indexed for inflation after 2009.

⁽²⁾ Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm

⁽³⁾ Includes both filing and non-filing units but excludes those that are dependents of other tax units.

⁽⁴⁾ After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

⁽⁵⁾ Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
