Number of AMT Taxpayers (millions). Baseline: 30.3

Proposal: 30.0

NOTE: Table shows the impact of the individual income tax measures on 2009 calendar year tax liability. Some individuals may not actually receive the benefits of the provisions until filing their 2009 tax returns in April of 2010. The business tax provisions are measured on a net present value basis. For more discussion of the proposals, see the TPC's Tax Stimulus Report Card: Ways and Means bill, available at <http://www.taxpolicycenter.org/publications/url.cfm?ID=411827>.

(1) Calendar year. Baseline is current law. For a description of "The American Recovery and Reinvestment Tax Act of 2009" see <http://jct.gov/x-5-09.pdf>. Provision include the Making Work Pay Credit equal to 6.2% of earned income up to a maximum credit of \$500 (\$1,000 for joint filers) phased out above AGI \$75,000 (\$150,000 for joint filers). The earned income tax credit percentage for families with three or more qualifying children is increased to 45 percent and the threshold phase-out amount for joint filers is increased to \$5,000 above the phase-out threshold for single and head of household tax units. The child tax credit refundability threshold is reduced to \$0. The HOPE credit is made available for four years at a rate of 100% of the first \$2,000 of qualified expenses and 25% of the next \$2,000. The phase-out thresholds are increased to AGI \$80,000 (\$160,000 for joint filers), textbooks are made a qualifying expense and the credit is allowable against the AMT. Forty percent of the credit is made refundable. Tax incentives for businesses include special allowance for certain property acquired during 2009, temporary increase in limitation on expensing of certain TARP recipients.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see <http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

NOTE: Table shows the impact of the individual income tax measures on 2009 calendar year tax liability. Some individuals may not actually receive the benefits of the provisions until filing their 2009 tax returns in April of 2010. The business tax provisions are measured on a net present value basis. For more discussion of the proposals, see the TPC's Tax Stimulus Report Card: Ways and Means bill, available at <http://www.taxpolicycenter.org/publications/url.cfm?ID=411827>.

(1) Calendar year. Baseline is current law. For a description of "The American Recovery and Reinvestment Tax Act of 2009" see <http://jct.gov/x-5-09.pdf>. Provisions include the Making Work Pay Credit equal to 6.2% of earned income up to a maximum credit of \$500 (\$1,000 for joint filers) phased out above AGI \$75,000 (\$150,000 for joint filers). The earned income tax credit percentage for families with three or more qualifying children is increased to 45 percent and the threshold phase-out amount for joint filers is increased to \$5,000 above the phase-out threshold for single and head of household tax units. The child tax credit refundability threshold is reduced to \$0. The HOPE credit is made available for four years at a rate of 100% of the first \$2,000 of qualified expenses and 25% of the next \$2,000. The phase-out thresholds are increased to AGI \$80,000 (\$160,000 for joint filers), textbooks are made a qualifying expense and the credit is allowable against the AMT. Forty percent of the credit is made refundable. Tax incentives for businesses include special allowance for certain property acquired during 2009, temporary increase in limitation on expensing of certain depreciable business assets, and a

5 year carryback with 10 percent cutback for 2008 and 2009 NOLs with exception for TARP recipients.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0308-07).

NOTE: Table shows the impact of the individual income tax measures on 2009 calendar year tax liability. Some individuals may not actually receive the benefits of the provisions until filing their 2009 tax returns in April of 2010. The business tax provisions are measured on a net present value basis. For more discussion of the proposals, see the TPC's Tax Stimulus Report Card: Ways and Means bill, available at <http://www.taxpolicycenter.org/publications/url.cfm?ID=411827>.

(1) Calendar year. Baseline is current law. For a description of "The American Recovery and Reinvestment Tax Act of 2009" see <http://jct.gov/x-5-09.pdf>. Provisions include the Making Work Pay Credit equal to 6.2% of earned income up to a maximum credit of \$500 (\$1,000 for joint filers) phased out above AGI \$75,000 (\$150,000 for joint filers). The earned income tax credit percentage for families with three or more qualifying children is increased to 45 percent and the threshold phase-out amount for joint filers is increased to \$5,000 above the phase-out threshold for single and head of household tax units. The child tax credit refundability threshold is reduced to \$0. The HOPE credit is made available for four years at a rate of 100% of the first \$2,000 of qualified expenses and 25% of the next \$2,000. The phase-out thresholds are increased to AGI \$80,000 (\$160,000 for joint filers), textbooks are made a qualifying expense and the credit is allowable against the AMT. Forty percent of the credit is made refundable. Tax incentives for businesses include special allowance for certain property acquired during 2009, temporary increase in limitation on expensing of certain depreciable business assets, and a

5 year carryback with 10 percent cutback for 2008 and 2009 NOLs with exception for TARP recipients.

(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see

<http://www.taxpolicycenter.org/TaxModel/income.cfm>

(3) Includes both filing and non-filing units but excludes those that are dependents of other tax units.

(4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
