\text { Proposal: } 21.7
$$

1) Calendar year. Baseline is current policy with the following modifications: extension of 2 percent payroll tax cut; repeal of the health care legislation taxes on earnings, and investment income; repeal of the 10 percent limitation on the deductibility of medical expenses; and extension of certain business and other provisions. For a description of the fiscal cliff provisions, see:
http://www.taxpolicycenter.org/publications/url.cfm?ID=412666
For a description of TPC's current policy baseline, see:
http://www.taxpolicycenter.org/T11-0270
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2012 dollars): 20\% \$20,113; 40\% \$39,790; $60 \% \$ 64,484 ; 80 \% \$ 108,266 ; 90 \% \$ 143,373$; 95\% \$204,296; 99\% \$506,210; 99.9\% \$2,655,675.
(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0412.7),
(1) Calendar year. Baseline is current policy with the following modifications: extension of 2 percent payroll tax cut; repeal of the health care legislation taxes on earnings, and investment income; repeal of the 10 percent limitation on the deductibility of medical expenses; and extension of certain business and other provisions. For a description of the fiscal cliff provisions, see
http://www.taxpolicycenter.org/publications/url.cfm? ID $=412666$
For a description of TPC's current policy baseline, see:
http://www.taxpolicycenter.org/T11-0270
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2012 dollars): $20 \% \$ 13,941 ; 40 \% ~ \$ 26,136 ; 60 \% \$ 41,226 ; 80 \% \$ 64,003 ; 90 \% \$ 88,398 ; 95 \%$ \$122,605; 99\% \$295,996; 99.9\% \$1,565,087.
(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax,
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0412-7).
Note: Ildrily tax units are those with either head or spouse (if filin iontly) 3855 or older,
(1) Calendar year. Baseline is current policy with the following modifications: extension of 2 percent payroll tax cut; repeal of the health care legislation taxes on earnings, and investment income; repeal of the 10 percent limitation on the deductibility of medical expenses; and extension of certain business and other provisions. For a description of the fiscal cliff provisions, see
http://www.taxpolicycenter.org/publications/url.cfm?|D=412666
For a description of TPC's current policy baseline, see:
http://www.taxpolicycenter.org/T11-0270
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2012 dollars): $20 \% \$ 13,941 ; 40 \% \$ 26,136 ; 60 \% \$ 41,226 ; 80 \% \$ 64,003 ; 90 \% \$ 88,398 ; 95 \%$ \$122,605; 99\% \$295,996; 99.9\% \$1,565,087.
(4) Includes both filing and non-filing units but excludes those that are dependents of other tax units.
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
