    (1) Calendar year. Effective marginal tax rates are weighted by wages and salaries. For a description of TPC's current law and current policy baselines, see:
    http://taxpolicycenter.org/numbers/displayatab.cfm?Docid=3131
    (2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm
    (3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2012 dollars): 20\% \$20,113; 40\% \$39,790; 60\% \$64,484; 80\% \$108,266; 90\% \$143,373; 95\% \$204,296; 99\% \$506,210; 99.9\% \$2,655,675.
    (4) Payroll tax rates include the additional 0.9 percent Hospital Insurance (HI) tax enacted by the health reform legislation.
