Number of AMT Taxpayers (millions). Baseline: 4.0

* Less than 0.05

** Insufficient data

(1) Calendar year. Baseline is a modified form of current policy, which is current policy with AMT exemption amounts of \$79,850 for married couples filing a joint return, \$51,150 for others (\$39,925 for married individuals filing separate returns). Relative to the modified current policy baseline, the proposal would: return the refundability threshold for the child tax credit to \$10,000, indexed for inflation; repeal the increase in the earned income tax credit (EITC) for families with three or more children; return the increase in the EITC plateau for married couples to \$3,000, indexed for inflation after 2008; repeal the American Opportunity Tax Credit; and reinstate the Hope Scholarship credit. For a description of TPC's current law and current policy baselines, see

http://www.taxpolicycenter.org/T11-0270

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see

http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2012 dollars): 20% \$20,113; 40% \$39,790; 60% \$64,484; 80% \$108,266; 90% \$143,373; 95% \$204,296; 99% \$506,210; 99.9% \$2,655,675.
(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

(1) Calendar year. Baseline is a modified form of current policy, which is current policy with AMT exemption amounts of \$79,850 for married couples filing a joint return, \$51,150 for others (\$39,925 for married individuals filing separate returns). Relative to the modified current policy baseline, the proposal would: return the refundability threshold for the child tax credit to \$10,000, indexed for inflation; repeal the increase in the earned income tax credit (EITC) for families with three or more children; return the increase in the EITC plateau for married couples to \$3,000, indexed for inflation after 2008; repeal the American Opportunity Tax Credit; and reinstate the Hope Scholarship credit. For a description of TPC's current law and current policy baselines, see

http://www.taxpolicycenter.org/T11-0270

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see

http://www.taxpolicycenter.org/TaxModel/income.cfm

(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2012 dollars): 20% \$13,941; 40% \$26,136; 60% \$41,226; 80% \$64,003; 90% \$88,398; 95% \$122,605; 99% \$295,996; 99.9% \$1,565,087.

(4) Includes tax units with a change in federal tax burden of \$10 or more in absolute value.

(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.

Table T12-0291 S. 3413 The Tax Hike Prevention Act of 2012 Senate Republican Proposal to Extend 2001-3 Tax Cuts and 2011 Estate Tax Law Baseline: Current Policy Distribution of Federal Tax Change by Cash Income Percentile Adjusted for Family Size, 2013 ¹ Detail Table - Head of Household Tax Units
