Number of AMT Taxpayers (millions). Baseline: $33.5 \quad$ Proposal: 33.7

* Less than 0.05
** Insufficient data
(1) Calendar year. Baseline is $S .3412$ as introduced. Proposal would: a) reinstate 2012 tax rates but raise the 35 percent rate to 39.6 percent beginning at a threshold of $\$ 400,000$
(single), $\$ 500,000$ (married), or $\$ 450,000$ (head of household), indexed for inflation after 2009, less the standard deduction and one personal exemption (two if married); d) raise PEP and Pease thresholds to $\$ 500,000$ of AGI (married) and $\$ 400,000$ (single), indexed for inflation after 2009; e) tax capital gains and qualified dividends at $20 \%$ for taxpayers in the new top bracket. For a description of TPC's current law and current policy baselines, see
http://www.taxpolicycenter.org/T11-0270

2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2012 dollars): $20 \%$ \$20,113; 40\% \$39,790; $60 \%$ \$64,484; 80\% \$108,266; 90\% \$143,373; 95\% \$204,296; 99\% \$506,210; 99.9\% \$2,655,675.
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value.
4) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

(1) Calendar year. Baseline is 5.3412 as introduced. Proposal would: a) reinstate 2012 tax rates but raise the 35 percent rate to 39.6 percent beginning at a threshold of $\$ 400,000$ (single), $\$ 500,000$ (married), or $\$ 450,000$ (head of household), indexed for inflation after 2009, less the standard deduction and one personal exemption (two if married); d) raise PEP and Pease thresholds to $\$ 500,000$ of AGI (married) and $\$ 400,000$ (single), indexed for inflation after 2009; e) tax capital gains and qualified dividends at $20 \%$ for taxpayers in the new top bracket. For a description of TPC's current law and current policy baselines, see http://www.taxpolicycenter.org/T11-0270
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
s table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size of the number of people in the tax unit. The resulting percentile breaks are (in 2012 dollars): $20 \% \$ 13,941 ; 40 \% \$ 26,136 ; 60 \% ~ \$ 41,226 ; 80 \% \$ 64,003 ; 90 \% \$ 88,398 ; 95 \% \$ 122,605 ; 99 \%$
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

Note: Tax units with children are those claiming an exemption for children at home or away from home.
(1) Calendar year. Baseline is 5.3412 as introduced. Proposal would: a) reinstate 2012 tax rates but raise the 35 percent rate to 39.6 percent beginning at a threshold of $\$ 400,000$ (single), $\$ 500,000$ (married), or $\$ 450,000$ (head of household), indexed for inflation after 2009, less the standard deduction and one personal exemption (two if married); d) raise PEP and Pease thresholds to $\$ 500,000$ of AGI (married) and $\$ 400,000$ (single), indexed for inflation after 2009; e) tax capital gains and qualified dividends at $20 \%$ for taxpayers in the new top bracket. For a description of TPC's current law and current policy baselines, see http://www.taxpolicycenter.org/T11-0270
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.ors/TaxModel/income.cfm
by dividing by the square root of the numbe the the are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size \$295,996; 99.9\% \$1,565,087.
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(5) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payrol taxes (Social security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
