Number of AMT Taxpayers (millions). Baseline: 3.4 Proposal: 4.0

* Less than 0.05
** Insufficient data
(1) Calendar year. Baseline is S .3412 plus an AMT patch with AMT exemption amounts of $\$ 79,850$ for married couples filing a joint return, $\$ 51,150$ for others ( $\$ 39,925$ for married individuals filing separate returns) and extension of 2009 estate tax law including a $\$ 3.5$ million effective exemption (unindexed) and a top estate tax rate of 45 percent . Proposal would: a) reinstate 2012 tax rates but raise the 35 percent rate to 39.6 percent beginning at a threshold of $\$ 800,000$ (single), $\$ 1$ million (married), or $\$ 900,000$ (head of
household), indexed for inflation after 2009, less the standard deduction and one personal exemption (two if married); d) raise PEP and Pease thresholds to \$1 million of AGI (married) and $\$ 800,000$ (single), indexed for inflation after 2009; e) tax capital gains and qualified dividends at 20\% for taxpayers in the new top bracket. For a description of TPC's current law and current policy baselines, see
http://www.taxpolicycenter.org/T11-0270

2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value
3) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.

1) Calendar year. Baseline is S .3412 plus an AMT patch with AMT exemption amounts of $\$ 79,850$ for married couples filing a joint return, $\$ 51,150$ for others ( $\$ 39,925$ for married individuals filing separate returns) and extension of 2009 estate tax law including a $\$ 3.5$ million effective exemption (unindexed) and a top estate tax rate of 45 percent. Proposal would: a) reinstate 2012 tax rates but raise the 35 ercent rate to 39.6 percent beginning at a threshold of $\$ 800,000$ (single), $\$ 1$ million (married), or $\$ 900,000$ (head of household), indexed for inflation after 2009, less the standard deduction and one persona xemption (two if married); d) raise PEP and Pease thresholds to $\$ 1$ million of AGI (married) and $\$ 800,000$ (single), indexed for inflation after 2009; e) tax capital gains and qualified dividends at $20 \%$ for axpayers in the new top bracket. For a description of TPC's current law and current policy baselines, see
http://www.taxpolicycenter.org/T11-0270
(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative cash income are excluded from the lowest income class but are included in the otals. For a description of cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
) Includes tax units with a change in federal tax burden
2) After-tax income is cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax
(5) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average cash income.
