(1) Tax units who are dependents of other tax units are excluded from the analysis. Numbers may not add due to rounding.

(2) AMT taxpayers are defined as those with an AMT liability from form 6251, with lost credits, or with reduced deductions.

(3) Pre-ATRA Law refers to the law that would have been in effect for the given year without the passage of the American Taxpayer Relief Act of 2012.

(4) Taxpayers are defined as returns with positive income tax liability net of refundable credits.

(5) "Revenue" is actually calendar year tax liability. Some of that liability would be paid in a subsequent year.
