Number of AMT Taxpayers (millions). Baseline: $6.1 \quad$ Proposal: 6.1

* Less than 0.05
** Insufficient data
(1) Calendar year. Baseline is current law. Proposal would index the $\$ 3000$ ( $\$ 6,000$ for two or more eligible individuals) maximum eligible expenses for the child and dependent care credit. Indexed amounts in all options would be rounded to the next lowest multiple of $\$ 50$. For a description of TPC's current law baseline, see
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm
 are included in the totals. For a description of expanded cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The breaks are (in 2013 dollars): $20 \%$ \$26,827; $40 \%$ \$54,460; 60\% \$95,241; 80\% \$156,821; 90\% \$230,152; 95\% \$304,802; 99\% \$784,795; 99.9\% \$4,787,602.
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value.
(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average expanded cash income.

(2) Includes both filing and non-filing units but excludes those that are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are ncluded in the totals. For a description of expanded cash income, see
http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2013 dollars): $20 \% \$ 18,678 ; 40 \% \$ 35,821 ; 60 \% \$ 60,717 ; 80 \% \$ 95,966 ; 90 \% \$ 135,210 ; 95 \%$ 184,386; 99\% \$476,111; 99.9\% \$2,833,819.
) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value
(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average expanded cash income.

* Less than 0.05

Note: Elderly tax units are those with either head or spouse (if filing jointly) age 65 or older.
(1) Calendar year. Baseline is current law. Proposal would index the $\$ 3000$ ( $\$ 6,000$ for two or more eligible individuals) maximum eligible expenses for the child and dependent care credit. Indexed amounts in all options would be rounded to the next lowest multiple of $\$ 50$. For a description of TPC's current law baseline, see
http://www.taxpolicycenter.org/taxtopics/Baseline-Definitions.cfm
are dependents of other tax units. Tax units with negative adjusted gross income are excluded from their respective income class but are included in the totals. For a description of expanded cash income, see
$\frac{\text { htp.//w inw.taxpolicycenter.org/TaxModel/income.cfm }}{\text { (3) The income percentile classes used in this table are based on the income distribution for the entire population and contain an equal number of people, not tax units. The incomes used are adjusted for family }}$ size by dividing by the square root of the number of people in the tax unit. The resulting percentile breaks are (in 2013 dollars): 20\% $\$ 18,678 ; 40 \% ~ \$ 35,821 ; 60 \% ~ \$ 60,717 ; 80 \% ~ \$ 95,966 ; 90 \% ~ \$ 135,210 ; 95 \%$ \$184,386; 99\% \$476,111; 99.9\% \$2,833,819,
(4) Includes tax units with a change in federal tax burden of $\$ 10$ or more in absolute value.
(5) After-tax income is expanded cash income less: individual income tax net of refundable credits; corporate income tax; payroll taxes (Social Security and Medicare); and estate tax.
(6) Average federal tax (includes individual and corporate income tax, payroll taxes for Social Security and Medicare, and the estate tax) as a percentage of average expanded cash income.
