Source: Urban-Brookings Tax Policy Center Microsimulation Model (version 0305-2)
(1) Calendar year. Under the proposal, the phase-in rate for three or more children would be 50 percent; the other parameters would be the same as for 2 or more children under current law
(2) Tax units with negative cash income are excluded from the lowest income class but are included in the totals. For a description of cash income, see http://www.taxpolicycenter.org/TaxModel/income.cfm
(3) Includes both filing and non-filing units. Tax units that are dependents of other taxpayers are excluded from the analysis.
